Chairwoman's Letter to Shareholders

November 2025

Dear Shareholder,

I am writing to update you on the activities of BlackRock Strategic Funds (the "Company" or "BSF") over the six months to 30 November 2025. The Company offered shares in 28 Funds (each a "Fund" and together the "Funds") as of 30 November 2025.

Global equity markets performed positively over the six months under review as inflation remained under control and major central banks in Europe and North America continued to cut interest rates.

Economic growth around the world has remained relatively resilient while corporate performance has been supported by optimism around the potential for artificial intelligence ("AI") to support long term productivity gains. However, uncertainty relating to the scope and long term impact of the trade tariffs introduced by the US government weighed on investor sentiment and created volatility, as did the ongoing conflicts in the Middle East and Ukraine.

In the Eurozone and the UK, gross domestic product ("GDP") growth slowed as 2025 progressed. After contracting in the first quarter of 2025, the US GDP recovered in the second quarter; data for the June to September period was delayed, however, by a government shutdown. In the most recent edition of its World Economic Outlook Update, published in January 2026, the International Monetary Fund ("IMF") said it expected the world economy to grow by 3.3% in 2026 and 3.2% in 2027. However, the IMF cautioned that downside risks persist, including potential flare ups in trade tensions, rising geopolitical uncertainties and the risk that a reassessment of AI related productivity expectations could trigger abrupt corrections in global financial markets.

Global equity markets were turbulent at the start of the six month period after attacks by the US and Israel on Iran's nuclear infrastructure raised fears of a prolonged regional conflict in the Middle East, although Iran's response to the attacks was more measured than expected. Share prices rose over the summer and autumn driven by strong corporate results, especially in the technology sector, although there were increasing concerns about high valuations among companies with a significant exposure to AI, towards the end of the period.

In terms of monetary policy, the European Central Bank ("ECB") and Bank of England ("BoE") continued to cut interest rates in response to lower inflation and signs of economic weakness. Having paused its interest rate cutting programme due to uncertainty around the impact of tariffs on inflation, the US Federal Reserve ("the Fed") reduced interest rates for the first time in 2025, in the month of September, and made a further rate cut the following month.

China's economy expanded faster than expected in the first six months of 2025, despite growing trade tensions with the US. Share prices in China continued to perform strongly over the six month period under review and were underpinned by breakthroughs in the development of AI services by Chinese technology companies. Japanese equities recovered following the appointment of a new prime minister, which renewed expectations of more supportive fiscal and monetary conditions.

There was continued volatility in fixed income assets during the six month period. Globally, government bond yields (which move inversely to bond prices) remained elevated driven by signs that inflation could rise as a result of the trade tariffs introduced by the US government, as well as in response to the planned increases in government borrowing in Europe. However, the Fed's rate cuts helped US bond yields to fall towards the end of the review period.

The performance of the Funds is covered in more detail in the Investment Advisers' Report, which also sets out some views regarding the investment outlook. Overall, the Company's assets under management ("AUM") rose 14.78% from USD 18,683.83 million to USD 21,445.35 million.

The strongest percentage growth in terms of AUM was seen in the BlackRock Systematic Global Equity Absolute Return Fund, which gained 468.76% to end the period at USD 382.16 million, while assets in the BlackRock Systematic Asia Pacific Equity Absolute Return Fund rose 111.31% to USD 1,533.70 million. The BlackRock Emerging Markets Equity Strategies Fund also saw strong AUM gains of 61.24% to end the period at USD 1,179.99 million while the BlackRock Emerging Markets Short Duration Bond Fund grew by 52.46% to close at USD 288.89 million.

While the majority of the Funds recorded an increase in AUM over the six months, the largest declines in percentage terms were seen in the BlackRock European Opportunities Extension Fund, which declined 27.64% to close at EUR 425.74 million, and in the BlackRock European Absolute Return Fund which declined by 25.07% during the period to end at EUR 567.63 million.

Chairwoman's Letter to Shareholders

November 2025 continued

Regulatory developments that could have implications for investors continued throughout Europe. Key developments include:

- The European Union's ("EU's") Sustainable Finance Disclosure Regulation ("SFDR") imposes transparency and reporting obligations on investment management firms, both at a firm-wide and at a product level. At the same time, the EU has developed an EU-wide classification system or 'framework'. Certain parts of the framework were finalised in 2022 and adopted at the start of 2023. This taxonomy is designed to provide businesses and investors with a common language to identify to what degree economic activities can be considered environmentally sustainable. The Luxembourg government took further steps to encourage investment in environmentally sustainable funds, reducing the 'taxe d'abonnement' (subscription tax) for funds that meet certain environmental criteria. In November 2025, the European Commission put forward proposals aimed at bringing additional simplification and clarity to SFDR. These will be deliberated by the European Parliament and the Council of the EU in due course.

- There have also been moves to improve reporting, with the Corporate Sustainability Reporting Directive ("CSRD") implemented in 2024. Under the CSRD regulations, companies are obliged to report on sustainability across their supply chains ("Scope 3") and are also required to incorporate double materiality into their reporting. Double materiality is the requirement to report not just on how sustainability-related issues affect the company, but how the company's activities affect the likes of the environment, climate change and social issues. However, in December 2025, the European Parliament voted to apply the CSRD regulations only to larger companies, i.e. those with more than 1,000 employees and annual turnover in excess of EUR 450 million.

- In August 2024, the European Securities and Markets Authority ("ESMA") published guidelines concerning the marketing of UCITS funds in the EU and European Economic Area. The guidelines stipulate that investment management firms should ensure that any language relating to sustainability used when marketing and naming funds is 'fair, clear and not misleading'. All funds launched on or after 21 November 2024 are expected to implement the guidelines from launch; funds that existed prior to this date were given until 21 May 2025 to make any necessary changes, which have now been fully implemented.

- Amendments to the Alternative Investment Funds Manager Directive ("AIFMD") and Directive relating to undertakings for collective investment in transferable securities ("UCITS") were published by the European Commission in March 2024. Under the new AIFMD 2, existing regulatory practices are to be harmonised in order to facilitate the structuring and marketing of alternative investment funds across the EU. The changes relate to issues ranging from delegation activities and liquidity risk management to regulatory treatment of custodians, and are scheduled to come into effect in April 2026.

Yours sincerely,

Denise Voss
Chairwoman

Investment Advisers' Report
Performance Overview

1 June 2025 to 30 November 2025

Market Review

Global stock markets overall performed positively across the six months under review as inflation remained under control and major central banks in North America and Europe continued to reduce interest rates. However, there was heightened volatility over the period that was primarily due to uncertainty around the direction of trade and foreign policy in the US. The start of the review period saw turbulence in global markets after Israeli and US forces attacked nuclear facilities in Iran. However, the lack of a sustained response from Iran helped to calm investor nerves.

Although shares in the world's largest technology businesses had declined at the start of 2025 following reports that a Chinese artificial intelligence ("AI") company had managed to create a powerful, low cost large language AI model, major technology stocks recovered and performed strongly over the six months. Investors however, continued to question the levels of capital investment required to develop new AI systems, as well as whether the technology would be able to deliver the large scale productivity gains promised by its proponents.

In Europe, the European Central Bank continued its interest rate cutting programme, reducing borrowing costs in June as inflation in the Eurozone fell in line with its official 2% target. In the UK, the Bank of England cut the base rate in August 2025, even though inflation in Britain was nearing 4%, mainly as a result of rising domestic energy and food costs. Markets in Europe and the UK gained further support after the US government agreed trade deals with both the EU and the British government that would limit the impact of the US government's trade tariffs. Weaker jobs data in the US over the summer prompted the US Federal Reserve ("the Fed") to cut interest rates in September and October, its first reductions during 2025; moves that were welcomed by the US stock markets.

The economic outlook in China continued to show signs of a sustained recovery following a challenging post-pandemic period. Improved economic data in the first half of 2025 coupled with optimism around China's technological capabilities led to significant gains on the country's stock markets. Equities in Japan recovered from weakness at the start of the year after the government announced a trade deal with the US; meanwhile, the resignation of Japan's prime minister in September raised hopes that the recent programme of interest rate rises could come to an end.

In Europe and the UK, government bond yields remained elevated throughout the period, even though interest rates had been reduced from their early 2024 highs (bond yields move inversely to bond prices). Yields in the US declined as the Fed resumed its rate cutting programme in September. The yield on 10-year US Treasuries dipped below 4% at the end of November 2025, having risen as high as 4.5% in June.

Fund Performance

A table setting out the performance returns for the primary share class for each Fund versus any applicable benchmark may be found on pages from 9 to 11. A brief summary of Fund performance follows.

Bond Fund Performance

The BlackRock Emerging Markets Flexi Dynamic Bond Fund rose by 7.46% (USD) over the period, ahead of its benchmark, the three-month SOFR Index, which rose 2.18%. The BlackRock ESG Fixed Income Strategies Fund gained 2.70% (EUR), outperforming its benchmark, the ESTR Overnight Rate Index, which rose 0.99%.

The information stated in this report is historical and not necessarily indicative of future performance.

Investment Advisers' Report
Performance Overview

1 June 2025 to 30 November 2025 continued

The BlackRock ESG Euro Bond Fund gained 0.95% (EUR) and outpaced, its benchmark, the Bloomberg MSCI Euro Aggregate Sustainable SRI Index, which rose 0.75%. The BlackRock ESG Euro Corporate Bond Fund gained 1.38% (EUR) but lagged its benchmark, the Bloomberg Barclays MSCI Euro Corporate Sustainable SRI Index, which rose 1.60%.

The BlackRock ESG Fixed Income Credit Strategies Fund rose 2.26% (EUR), outperforming its benchmark, the ESTR Overnight Rate Index, which gained 0.99%. The BlackRock Euro Short Duration Bond Fund rose 1.14% (EUR), ahead of the performance of its benchmark, the Bloomberg MSCI Euro Aggregate 1-3 years Sustainable SRI Index, which gained 0.94%. Finally, the BlackRock Emerging Markets Short Duration Bond Fund added 8.87% (USD) and outperformed its benchmark, the three-month SOFR Index, which returned 2.18%.

Mixed Fund Performance

The BlackRock Dynamic Diversified Growth Fund rose 7.22% (EUR) over the six months, outperforming its benchmark, the ESTR Overnight Rate Index, which gained 0.99%. The BlackRock Managed Index Portfolio (Conservative) was up 6.48% (EUR). The Defensive, Moderate and Growth portfolios rose 3.75%, 7.59% and 11.22% respectively in Euro terms. None of the managed portfolios has a benchmark.

Outlook

Despite periods of volatility, equity market performance in 2025 has been largely positive, with inflation remaining under control, interest rates continuing to fall and companies across a wide range of sectors reporting robust performance.

While the introduction of trade tariffs by the US government in the first half of the year created a significant degree of share price turbulence and investor uncertainty, financial markets appear to have shrugged off these worries. However, there are a number of grounds for concern as we move into 2026. The geopolitical situation in the Middle East and Ukraine remains unstable, while the US government shutdown that began in October and lasted into mid-November has resulted in delays to the publication of data about the health of the American economy. At the same time, there are growing concerns related to the ongoing high levels of capital expenditure on AI infrastructure by major software firms, as well as fears that the valuations of businesses across the technology sector have become overstretched.

Notwithstanding these headwinds, there are companies in all areas of the global economy that have demonstrated their resilience through the turbulence seen in the recent years, and which are set to benefit from looser monetary policy and technological developments. While there will undoubtedly be challenges in the months ahead, so too will opportunities continue to emerge.

Investment Advisers' Report
Performance Overview

1 June 2025 to 30 November 2025 continued

Disclosed in the table below are the performance returns for the primary share class for each Fund, which has been selected as a representative share class. In accordance with the respective investment objective detailed in the Prospectus, the Funds do not aim to track the performance of a specific benchmark index. The benchmark index returns included in the below table are provided for reference only for the purpose of this Interim report and unaudited financial statements. The primary share class for the BlackRock Asia Pacific Absolute Return Fund, BlackRock Emerging Companies Absolute Return is the D class non-distributing share. For all other Funds the primary share class is the A class non-distributing share. Performance returns for any other share class can be made available on request.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed. The Funds invest a large portion of assets which are denominated in multiple currencies; hence changes in the relevant exchange rate will affect the value of the investment. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time. Subscriptions can only be made on the basis of the current Prospectus, the PRIIPs KID, supplemented by the most recent Annual report and audited financial statements and Interim report and unaudited financial statements, if published after such Annual report and audited financial statements. Copies are available from the Local Investor Servicing team (Local BlackRock Group companies or branches of their administrators), the Transfer Agent, the Management Company or any of the Representatives or Distributors and at the registered office of the Company. BSF is only available for investment by non-US citizens who are not residents of the US. The Funds are not offered for sale or sold in the US, its territories or possessions.

Notes to the Financial Statements

1. Organisation

BlackRock Strategic Funds (the "Company") is a public limited company (*société anonyme*) established under the laws of the Grand Duchy of Luxembourg as an open-ended variable capital investment company (*société d'investissement à capital variable*). The Company has been authorised by the *Commission de Surveillance du Secteur Financier* (the "CSSF") as a UCITS pursuant to the provisions of Part I of the 2010 Law and is regulated pursuant to such law.

The Company has appointed BlackRock (Luxembourg) SA as its Management Company.

As at 30 November 2025, the Company offered shares in 28 Funds (each a "Fund", together the "Funds"). The Company is an umbrella structure comprising separate Funds with segregated liability. Each Fund shall have segregated liability from the other Funds and the Company shall not be liable as a whole to third parties for the liabilities of each Fund. Each Fund shall be made up of a separate Portfolio of Investments maintained and invested in accordance with the investment objectives applicable to such Fund. Each Fund is a separate pool of assets and is represented by separate shares of each Fund which are divided into share classes as detailed in Appendix I.

The classes of shares have equivalent rights in the Company but carry different features and charging structures which are more fully described in the Company's Prospectus.

Share Classes Launched

Share Classes launched during the period are disclosed in Appendix I.

Significant events during the period

There have been no significant events during the reporting period.

2. Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with generally accepted accounting principles in Luxembourg and with the legal and regulatory requirements relating to the preparation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg UCITS and include the following significant accounting policies:

(a) Valuation of Investments, Other Assets and Other Liabilities

The Company's investments, other assets and other liabilities are valued as follows:

- transferable securities which are admitted to an official exchange listing or dealt in on another regulated market, are valued on the basis of the latest available price prevailing on the valuation date. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. Where such securities or other assets are quoted or dealt in, on or by more than one stock exchange or regulated market, the Board may in its discretion select one of such stock exchanges or regulated markets for such purposes. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds or where governments chose to impose fiscal or transaction charges on foreign investment. As a result, the Board have implemented fair value techniques in order to estimate the fair value of these investments. Such securities and derivatives shall be valued at their probable realisation value as determined by the competent persons (the Directors). Because of the inherent uncertainty in the fair value process, these estimated values may significantly differ from the values that would have been used had a ready market for the securities existed, and from the values that may be ultimately recovered. The Board of Directors of the Company delegate the valuation of investments to the senior management of the Management Company;
- for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market (including securities of closed-ended investment funds), as well as quoted or non-quoted securities on such other markets for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Board, not representative of the fair market value, the value shall be determined prudently and in good faith by the Board, on the basis of their expected disposal or acquisition price;

As at 30 November 2025, the adjusted fair value applied to certain securities and/or derivatives are disclosed in the table below:

Fund	Currency	Market Value of fair valued securities	% of Net Assets
BlackRock Emerging Markets Equity Strategies Fund	USD	409	0.00
BlackRock Emerging Markets Flexi Dynamic Bond Fund	USD	274,633	0.02
BlackRock Emerging Markets Short Duration Bond Fund	USD	18,394	0.00
BlackRock ESG Fixed Income Credit Strategies Fund	EUR	158,946	0.04
BlackRock ESG Fixed Income Strategies Fund	EUR	793,060	0.04
BlackRock Global Event Driven Fund	USD	489,189	0.04
BlackRock Health Sciences Absolute Return Fund	USD	290	0.00
BlackRock Systematic Asia Pacific Equity Absolute Return Fund	USD	195,724	0.00
BlackRock Systematic Global Equity Absolute Return Fund	USD	4,517	0.00
BlackRock Systematic Style Factor Fund	USD	0	0.00
BlackRock Systematic US Equity Absolute Return Fund	USD	836,669	0.07
BlackRock UK Equity Absolute Return Fund	GBP	44,526	0.02

The fair valued securities are evidenced by a "*" in the Portfolio of Investments.

- if in any case a particular value is not ascertainable by the methods outlined above, or if the Board considers that some other method of valuation more accurately reflects the fair value of the relevant security or other asset for the purpose concerned, the method of valuation of the security or other asset will be such as the Board in their absolute discretion decides. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds. In such cases the Board may set specific thresholds, that, where exceeded, result in an adjustment to the NAV by applying a specific index adjustment. Additionally, where governments choose to impose fiscal or transaction charges on foreign investment, the Board may adjust the NAV to reflect such charges;
- as at 30 November 2025, BlackRock Emerging Markets Absolute Return Fund (terminated on 6 May 2022), BlackRock Latin American Opportunities Fund (terminated on 8 March 2019) and BlackRock Systematic Sustainable Global Equity Fund (terminated 30 September 2024), held open illiquid positions, which together accounted for less than 1.00% of the net asset value of the Funds as at the last Valuation Point prior to each Fund's date of termination. If the illiquid securities are subsequently disposed of, or a value is realised, this will be distributed to the shareholders of the respective Funds proportionate to each shareholder's holding in the Fund as at the date of termination;
- investments in open-ended collective investment schemes are valued on the basis of the last available NAV of the units or shares of such collective investment scheme;
- securities lending: securities are delivered to a third party broker in accordance with lending agent instructions and continue to be valued as part of the portfolios of the Funds;
- liquid assets such as time deposits and money market instruments are valued at amortised cost which approximates their fair value;
- cash at bank and other assets are valued at their nominal amount;
- assets which include, in particular, cash owned to bank, interest and dividends receivable, receivable for investments sold and receivable for Fund shares subscribed are valued at nominal value unless it appears unlikely that such nominal amount is obtainable;
- liabilities which include, in particular, interest and dividends payable, income distribution payable, payable for investments purchased and payable for Fund shares redeemed are valued at their nominal value.

(b) Net realised gains and losses on Investments

Net realised gains and losses on sales of investments have been determined on the basis of the average cost method.

(c) Income/Expense from Investments

The Company takes account for income from its investments on the following basis:

- interest income/expense is accrued daily and includes the amortisation on a straight line basis of premiums and accretion on a straight line basis of discounts;
- bank interest, fixed deposit and money market deposit interest income are recognised on an accrual basis;
- dividend income is accrued on the ex-dividend date and is shown net of withholding tax;
- securities lending income is recognised on an accrual daily basis;
- negative yield expense on financial assets relating to interest from a negative effective interest rate on assets held is accreted daily and is recognised in the Statement of Operations and Changes in Net Assets over the life of the underlying instrument;
- when a bond has been identified as being in default, the interest accrual on the defaulted security is stopped. On confirmation of default from relevant parties, the amount receivable is written off;
- the interest rate of any perpetual bonds in the Portfolio of Investments disclosed under the description is the interest rate applicable at the period end and is for information only as these are bonds with a variable interest rate.

(d) Financial Derivative Instruments

During the period, the Funds have entered into a number of forward foreign exchange transactions and futures contracts. Open forward foreign exchange transactions and futures contracts are valued at the fair market value to close the contracts on the valuation date. Surpluses/deficits arising from these and unsettled contracts are taken to unrealised appreciation/(depreciation) and are included under assets or liabilities (as appropriate) in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on settlement or closing transactions of forward foreign exchange transactions and futures contracts are presented in the Statement of Operations and Changes in Net Assets.

The Funds can write covered call and put options or swaptions and purchase call and put options or swaptions. When the Funds write and/or purchase an option or a swaption, an amount equal to the premium received or paid by the Funds is reflected as a liability or an asset. The liability for a written option or swaption and the asset for a purchased option or swaption is subsequently marked to market to reflect the current value of the option or the swaption. When a security is sold or bought through an exercise of an option or a swaption, the premium received (or paid) is deducted from (or added to) the basis of the security sold or bought. When an option or a swaption expires (or the Funds enter into a closing transaction), the Funds realise a gain or loss on the option or the swaption to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transactions exceeds premium paid or received). For futures-style options, the Funds do not prepay the premium. The Funds post margin as in a futures

contract, and the option premium is marked to market daily. The purchased options/swaptions at market value and written options/swaptions at market value are included under assets or liabilities (as appropriate) in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on expiration or closing transactions of options or swaptions are presented in the Statement of Operations and Changes in Net Assets.

The Funds may enter into Swap transactions ("swaps"), in which the Funds and a counterparty agree to make periodic net payments on a specified notional amount. Swap transactions are privately negotiated in the OTC market and may be entered into as a bilateral contract ("OTC swaps") or centrally cleared ("centrally cleared swaps"). These periodic payments received or made are recorded in the Statement of Operations and Changes in Net Assets as net realised gains or losses, respectively. Swaps are valued utilising quotes received daily by the Funds' pricing service, central clearing houses or brokers, which are derived using daily swap curves and models that incorporate a number of market data factors, such as discounted cash flows, trades and values of the underlying reference instruments. In a centrally cleared swap, immediately following execution of the swap agreement, the swap agreement is novated to a clearing counterparty and the Fund faces the clearing counterparty through a broker. Upon entering into a centrally cleared swap, the Fund is required to deposit initial margin with the broker in the form of cash or certain eligible securities in an amount that varies depending on the size and risk profile of the particular swap. Any upfront payments made or received upon entering a swap contract are treated as part of the swap's net realised gain or loss. The daily change in valuation of centrally cleared swaps is recorded as a receivable or payable for variation margin in "Cash at bank" or "Cash owed to bank" position of the Statement of Net Assets until the centrally cleared swap is terminated at which time a net realised gain or loss is recorded. The net change in unrealised appreciation or depreciation and the net realised gains or losses on Swap transactions are disclosed in Statement of Operations and Changes in Net Assets. Interest income receivable and expense payable on swaps is accrued on a daily basis and disclosed in a net position as ″Interest and dividends receivable″ or ″Interest and dividends payable″ in the Statement of Net Assets. The Funds had unsettled swap transactions as of 30 November 2025, which are included within ″Receivable for investments sold″ and ″Payable for investments purchased″ in the Statement of Net Assets. Swaps are separately disclosed in the Portfolio of Investments.

Net realised gains and losses on sales of swaps have been determined on the basis of the First In First Out ("FIFO") cost method.

Funds may purchase "To Be Announced" securities contracts ("TBAs"). This refers to the common trading practice in the mortgage-backed securities market whereby a contract is purchased which entitles the buyer to a security from a mortgage pool for a fixed price at a future date. At the time of purchase the exact security is not known, but its main characteristics are specified. Although the price has been established at the time of purchase, the principal value has not been finalised. As a TBA is not settled at the time of purchase, this may lead to leveraged positions within a Fund. Purchasing a TBA involves a risk of loss if the value of the security to be purchased declines prior to the settlement date. Risks may also arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts. TBAs are separately disclosed at the end of the Portfolio of Investments.

The Funds may dispose of a commitment prior to settlement if it is deemed appropriate to do so. Proceeds of TBA sales are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), are held as cover for the transaction.

If the TBA sale commitment is closed through the acquisition of an offsetting purchase commitment, the Fund realises a gain or loss on the commitment without regard to any unrealised gain or loss on the underlying security. If the Fund delivers securities under the commitment, the Fund realises a gain or loss from the sale of the securities upon the unit price established at the date the commitment was entered into.

The Funds had unsettled TBA transactions as of 30 November 2025, which are included within ″Receivable for investments sold″ and ″Payable for investments purchased″ in the Statement of Net Assets.

The market values of the TBAs are presented in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the net realised gains or losses on sales of the TBAs are presented in the Statement of Operations and Changes in Net Assets.

Net realised gains and losses on sales of TBA have been determined on the basis of the First In First Out ("FIFO") cost method.

(e) Foreign Exchange

The cost of investments in currencies other than the currency of denomination of the respective Funds has been translated at the rates of exchange ruling at the time of purchase. Investments and other assets and liabilities in currencies other than the currency of denomination of the respective Funds have been translated at the exchange rate prevailing at the respective Fund's valuation point in Luxembourg on 30 November 2025.

The net change in unrealised appreciation or depreciation and the net realised gains or losses on disposal or settlement of other assets or liabilities in currencies other than the currency of denomination of the respective Funds are presented in the Statement of Operations and Changes in Net Assets.

Income and expenses in currencies other than the currency of denomination of the respective Funds have been translated at the rates of exchange prevailing on transaction date.

Different exchange rates are resulting from the pricing matrix and different valuation points between the different Portfolios. In the below table, the 5PM CET exchange rates on 29 November 2025 are presented for BlackRock Dynamic Diversified Growth Fund, the 4PM CET exchange rates on 30 November 2025 are presented for all other Funds.

The following exchange rates were used to translate the investments and other assets and other liabilities denominated in currencies other than the base currency of the Fund, for all Funds (except the BlackRock Dynamic Diversified Growth Fund)

at the respective Funds' valuation point at 30 November 2025. Please refer to the Prospectus for more details on the valuation point of the Funds.

(f) Combined Financial Statements

The accounts of each Fund are expressed in the Fund's base currency. The combined figures of the Company are expressed in USD and include the total of the financial statements of the different Funds, translated if necessary. For the translation of the Statement of Net Assets, the exchange rate prevailing at the Funds' valuation point in Luxembourg as at 30 November 2025 for all Funds expressed in EUR excluding BlackRock Dynamic Diversified Growth Fund is:

	EUR
USD	0.8632

For the BlackRock Dynamic Diversified Growth Fund, the following exchange rate prevailing as at 30 November 2025 is used. Please refer to the Prospectus for more details.

	EUR
USD	0.8617

For the BlackRock Emerging Companies Absolute Return Fund and BlackRock UK Equity Absolute Return Fund, the exchange rate prevailing at the Fund's valuation point in Luxembourg as at 30 November 2025 is:

	GBP
USD	0.7559

For the Statement of Operations and Changes in Net Assets, the following exchange rate is the average rate calculated over the period for all Funds expressed in EUR excluding BlackRock Dynamic Diversified Growth Fund:

	EUR
USD	0.8598

For the BlackRock Dynamic Diversified Growth Fund, the following exchange rate is the average rate calculated over the period:

	EUR
USD	0.8596

For the BlackRock Emerging Companies Absolute Return Fund and BlackRock UK Equity Absolute Return Fund, the following exchange rate is the average rate calculated over the period:

	GBP
USD	0.7452

The combined figures in the Statement of Operations and Changes in Net Assets have been calculated using the average exchange rates throughout the period. The resulting Foreign exchange adjustment of USD 193,538,105 represents the movement in exchange rates between 1 June 2025 and 30 November 2025. This is a notional amount, which has no impact on the Net Assets of the individual Funds.

(g) Income Equalisation

The Company operates Income Equalisation arrangements with a view to ensure that the level of net income accrued within a Fund and attributable to each share is not affected by the issue, conversion or redemption of Fund shares during an accounting period.

The Income Equalisation is included in the Movements in share capital in the Statement of Operations and Changes in Net Assets.

(h) Dilution

The Directors may adjust the NAV per Share for a Fund in order to reduce the effect of "dilution" on that Fund. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Fund deviates from the carrying value of these assets in the Fund's valuation, due to factors such as dealing and brokerage charges, taxes and duties, market movement and any spread between the buying and selling prices of the underlying assets. Dilution may have an adverse effect on the value of a Fund and therefore impact Shareholders. By adjusting the NAV per Share this effect can be reduced or prevented and Shareholders can be protected from the impact of dilution. The Directors may adjust the NAV of a Fund if on any Dealing Day the value of the aggregated cash flows of all Share Classes of that Fund results in a net increase or decrease which exceeds one or more thresholds that are set by the Directors for that Fund. The amount by which the NAV of a Fund may be adjusted on any given Dealing Day is related to the anticipated cost of market dealing for that Fund. In such circumstances the NAV of the relevant Fund may be adjusted by an amount not exceeding 1.50%, or 3% in the case of bond Funds, of that NAV. Under exceptional circumstances the Directors may, in the interest of Shareholders, decide to temporarily increase the maximum swing factor indicated above and inform investors thereof. The adjustment will be an addition when the net movement results in an increase in the value of all Shares of the Fund and a deduction when it results in a decrease.

As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, particularly in relation to duties and taxes, the resulting adjustment may be different for net inflows than for net outflows. In addition, the Directors may also agree to include extraordinary fiscal charges in the amount of the adjustment. These extraordinary fiscal charges vary from market to market and are currently expected not to exceed 2.5% of that NAV. Where a Fund invests primarily in certain asset types, such as government bonds or money market securities, the Directors may decide that it is not appropriate to make such an adjustment.

During the financial period from 1 June 2025 to 30 November 2025 dilution adjustments were applied to all Funds.

The published/dealing NAV per share is disclosed in the Three Year Summary of Net Asset Values (on pages 19 to 31) and may include a dilution adjustment. This adjustment is not recognised in the Statement of Net Assets or the Statement of Operations and Changes in Net Assets.

(i) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of securities and derivatives. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the security. When a security is recognised initially, it is measured at its market value, plus transaction costs that are directly attributable to the acquisition or issue of the security.

Transaction costs excluding depositary transaction fees on purchases or sales of securities are included within net realised gain/(loss) or net change in unrealised appreciation/(depreciation) within the Statement of Operations and Changes in Net Assets of each Fund. Depositary transaction fees are included in Depositary fees in the Statement of Operations and Changes in Net Assets of the Fund. Refer to Note 6 for further information.

(j) Foreign currencies on other transactions

Foreign currencies on other transactions relate to realised and unrealised appreciation or depreciation on cash balances and spot contracts and are disclosed in the Statement of Operations and Changes in Net Assets.

3. Management Company

BlackRock (Luxembourg) SA (the "Management Company") has been appointed by the Company to act as its Management Company. The Management Company is authorised to act as a fund management company in accordance with Chapter 15 of the 2010 Law.

The Company has signed a management company agreement with the Management Company. Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company's investment management, administration and marketing of the Funds.

In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in the Prospectus. The Management Company is also authorised to act as an Alternative Investment Fund Manager in accordance with the Law of 12 July 2013.

The Management Company is a wholly owned subsidiary within the BlackRock Group. It is regulated by the CSSF.

4. Management and Distribution Fees

During the period, the Company paid management fees to the Management Company.

The Company pays management fees at an annual rate as shown in Appendix F of the Prospectus. The level of management fee varies by Fund and Share Class and may be up to 1.80% of the NAV. These fees accrue daily, are calculated on the NAV of the relevant Fund and are paid monthly. Certain costs and fees, including the fees of the Investment Adviser, are paid out of the management fees for those share classes that bear such fees.

No management fee is charged at Fund level in respect of Class X Shares. Investors in Class X Shares pay an advisory or management fee directly to the Investment Adviser or its affiliates under a separate agreement; accordingly, the Fund does not bear any Investment Adviser fees in respect of this share class.

Where a Fund invests a substantial proportion of its net assets in other UCITS and other Undertakings for Collective Investment ("UCIs"), the Investment Adviser will ensure that the total management fee (excluding any performance fee, if any) charged to such Fund (including management fees from other UCITS and UCIs in which it invests) shall not exceed 3.75% of the NAV of the Fund.

During the period, the following Funds were subject to management fee rebate linked to investments into target funds managed by BlackRock disclosed in the Statement of Operations and Changes in Net Assets under the caption "Management fee rebate":

BlackRock Dynamic Diversified Growth Fund, BlackRock ESG Fixed Income Strategies Fund, BlackRock Managed Index Portfolios − Conservative, BlackRock Managed Index Portfolios − Defensive, BlackRock Managed Index Portfolios − Growth, BlackRock Managed Index Portfolios − Moderate.

During the period, all Funds disclosed below were subject to fee reimbursement from the Management Company, as disclosed in the Statement of Operations and Changes in Net Assets under the caption ″Reimbursement of expenses″:

BlackRock ESG Euro Corporate Bond Fund, BlackRock Euro Short Duration Bond Fund, BlackRock ESG Fixed Income Credit Strategies Fund, BlackRock European Select Strategies Fund, BlackRock Managed Index Portfolios − Conservative, BlackRock Managed Index Portfolios − Defensive.

During the period, the Company paid distribution fees to BlackRock Investment Management (UK) Limited who acted as Principal Distributor.

The Company pays annual distribution fees between 1.25% and 1.00% of the NAV for Class C Shares and 0.50% of the NAV for Class E Shares. These fees accrue daily, are based on the NAV of the relevant Fund reflecting, when applicable, any adjustment to the NAV of the relevant Fund, and are paid monthly.

The management and distribution fees per Share Class per Fund are disclosed in detail in the Prospectus of the Companyand the relevant PRIIPs KIID. Management and distribution fees payable at 30 November 2025 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

5. Annual Service Charge

The Company pays an Annual Service Charge to the Management Company.

The level of Annual Service Charge may vary at the Board's discretion, as agreed with the Management Company, and will apply at different rates across the various Funds and Share Classes issued by the Company. However, it has been agreed between the Board and the Management Company that the Annual Service Charge currently paid shall not exceed 0.30% per annum. It is accrued daily, based on the NAV of the relevant Share Class and paid monthly.

The Directors and the Management Company set the level of the Annual Service Charge at a rate which aims to ensure that the ongoing charge of each Fund remains competitive when compared across a broad market of similar investment products available to investors in the Funds, taking into account a number of criteria such as the market sector of each Fund and the Fund's performance relative to its peer group.

The Annual Service Charge is used by the Management Company to meet all fixed and variable operating and administrative costs and expenses incurred by the Company, with the exception of the depositary fees, distribution fees, securities lending fees, any fees arising from borrowings (including for the avoidance of doubt any commitment fee that may be due to the lender), any professional services costs relating to withholding tax reclaims (plus any taxes or interest thereon), and any taxes at an investment or Company level. Any commitment fees arising from borrowings or any professional services costs relating to withholding tax reclaims will be allocated between the relevant Funds on a fair and equitable basis.

These operating and administrative expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Company from time to time, including but not limited to, fund accounting fees, transfer agency fees (including sub-transfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, Directors' fees (for those Directors who are not employees of the BlackRock Group), travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to shareholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the Investor Servicing teams and other global administration services provided by various BlackRock Group companies.

The Management Company bears the financial risk of ensuring that the Fund's total expense ratio remains competitive. Accordingly the Management Company is entitled to retain any amount of the Annual Service Charge paid to it which is in excess of the actual expenses incurred by the Company during any period whereas any costs and expenses incurred by the Company in any year which exceed the amount of Annual Service Charge that is paid to the Management Company, shall be borne by the Management Company or another BlackRock Group company.

Annual Service Charge payable at 30 November 2025 is included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

Directors of the Company who are not employees of the BlackRock Group receive a fee between EUR 31,000 to EUR 43,000 per annum gross of taxation. Directors who are employees of the BlackRock Group are not entitled to receive a Directors fee.

6. Depositary Fees

The Depositary receives an annual fee, based on the value of securities, which accrue daily, plus transaction fees. The annual safekeeping fees range from 0.0073% to 0.5062% per annum and the transaction fees range from USD 1.73 to USD 111.36 per transaction on average.

Safekeeping fees and transaction fees may vary depending on market conditions and are subject to change without notice. The rates for both categories of fees will vary according to the country of investment and, in some cases, according to asset class.

Trading volumes for each Fund will vary according to the investment strategy of each Fund.

Depositary fees payable at 30 November 2025 are included in the Statement of Net Assets under the caption "Accrued expenses and other liabilities".

7. Performance Fees

A performance fee may be payable out of each Share Class of each Fund with the exception of Class X shares which do not pay a performance fee, in addition to other fees and expenses mentioned in the Prospectus. The performance fee accrues on each Valuation Day and is equal to 8%, 15%, 20% or 30% (as applicable to the relevant Fund, as stated in Appendix E of the Prospectus) of the amount by which the NAV per share return exceeds the appropriate benchmark return described in further detail in Appendix E of the Prospectus. Two methods of calculation are used and are referred to as Type A and Type B – the method applicable to each Fund is indicated in Appendix E of the Prospectus. Further details may be obtained from the Local Investor Servicing team and the registered office of the Company.

Crystallisation of the performance fee occurs on the last day of each Performance Period ('each Performance Period as defined in the prospectus of the Company') or where a shareholder redeems or converts all or part of his shares before the end of a Performance Period.

Performance fees payable at 30 November 2025 are included in the Statement of Operations and Changes in Net Assets under the caption ″Performance fees″.

During the financial period ended 30 November 2025, performance fees charged to funds were as follows:

8. Taxes

Luxembourg subscription tax, Belgian tax, realised and unrealised Capital Gain Tax are disclosed in the Statement of Operations and Changes in Net Assets under caption "Taxes". For the period ended 30 November 2025, USD 8,109,460 was charged in relation to Taxes. In relation to Capital Gain Tax, the realised capital gain tax was USD 2,461,549 and the unrealised capital gain tax was USD 2,278,818.

Luxembourg

The Company is registered under Luxembourg law as an investment company. Accordingly, no Luxembourg income or capital gains tax is at present payable by the Company. However, it is subject to an annual subscription tax ("*taxe d'abonnement*") of 0.05% per annum or, in the case of Class I, Class IA, Class J, Class T, Class X and Class ZI, 0.01% per annum of its NAV, payable quarterly on the basis of the value of the net assets of the Fund at the end of the relevant calendar quarter. No stamp or other tax is payable in Luxembourg on the issue of Shares. For the period ended 30 November 2025, USD 3,369,093 was charged in relation to Luxembourg subscription tax.

United Kingdom

Reporting Funds

The UK Reporting Funds regime applies to the Company. Under this regime, investors in UK Reporting Funds are subject to tax on the share of the UK Reporting Funds income attributable to their holdings in the Fund, whether or not distributed, but any gains on disposal of their holdings are subject to capital gains tax. A list of the Funds which currently have UK Reporting Fund status is available at: https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds.

Other transaction taxes

Other jurisdictions may impose taxes, financial transactions taxes ("FTT") or other transaction taxes on certain assets held by the Funds (for example UK stamp duty, French FTT).

Withholding tax

Dividends, interest and capital gains (if any) received by the Company on its investments may be subject to withholding taxes in the countries of origin which are generally irrecoverable as the Company itself is exempt from income tax. Recent European Union case law may, however, reduce the amount of such irrecoverable tax. Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling Shares under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and reliefs from, taxation can change. The potential of withholding tax charges is further described in the Prospectus.

Withholding tax is included in the Statement of Operations and Changes in Net Assets under the captions ″Dividends, net of withholding taxes″ and ″Bond interests, net of withholding taxes″.

9. Investment Advisers and Sub-Investment Advisers

The Management Company, BlackRock (Luxembourg) S.A., has delegated the management and provision of investment advice to the Investment Advisers: BlackRock Financial Management, Inc. (“BFM”), BlackRock Institutional Trust Company N.A. (“BITC”), BlackRock Investment Management LLC (“BIMLLC”), BlackRock Investment Management (UK) Limited (“BIM UK”) and BlackRock (Singapore) Limited (“BSL”) as described in the Prospectus.

The Investment Advisers provide advice and management in the areas of stock and sector selection and strategic allocation. BIM UK has sub-delegated some of its functions to BlackRock Investment Management (Australia) Limited (“BIMAL”) and BlackRock Asset Management North Asia Limited (“BAMNA”). Notwithstanding the appointment of the Investment Advisers, the Management Company accepts full responsibility to the Company for all investment transactions.

(1) Fund name changed post period end, see Note 16 for further details.
(2) The Fund is authorised in Hong Kong and is available to the public in Hong Kong as at 30 November 2025. The other Funds listed in the table are not authorised or available to the public in Hong Kong as at 30 November 2025.

10. Transactions with connected persons

The ultimate holding company of the Management Company, the Principal Distributor, the Investment Advisers and the Sub-Investment Advisers is BlackRock, Inc., a company incorporated in Delaware, USA. During the financial period, there were no transactions of the Company effected through a broker who is a connected person of the Management Company, the Investment Advisers, Sub-Investment Advisers or the Directors of the Company. The Company does not have any transactions with the Management Company, the Investment Advisers, Sub-Investment Advisers or the Directors of the Company or any of their connected persons as a principal.

The BlackRock Systematic Asia Pacific Equity Absolute Return Fund is authorised in Hong Kong and is available to the public in Hong Kong as at 30 November 2025. During the financial period there have been no transactions in the shares of the Fund by the Board of Directors.

When a Fund invests in the units of other UCITS and/or other UCIs that are managed, directly or by delegation, by the same Investment Adviser or by any other company with which the Investment Adviser is linked by common management or control, or by a substantial direct or indirect holding, no subscription or redemption fees may be charged to the Company on its investment in the units of such other UCITS and/or UCIs. These investments are evidenced by a ~ in the Portfolio of Investments of the Fund.

Where a Fund invests a substantial proportion of its net assets in other UCITS and other UCIs, the Investment Adviser will ensure that the total management fee (excluding any performance fee, if any) charged to such Fund (including management fees from other UCITS and UCIs in which it invests) shall not exceed 3.75% of the net asset value of the Fund.

During the financial period there have been no transactions which were outside the ordinary course of business or which were not on normal commercial terms entered into between the Company, the Management Company, the Investment Advisers, Sub-Investment Advisers, the Directors of the Company, the Depositary or any entity in which these parties or their connected persons have a material interest.

The securities lending agent appointed pursuant to the securities lending agreement is BlackRock Advisors (UK) Limited which is a connected party to the Company. BlackRock Advisors (UK) Limited bears all operational costs directly related to securities loan transactions.

Some of the Funds use cross investment techniques, meaning that the Funds invest into other Funds within the Company's umbrella structure. The combined Statement of Net Asset and the combined Statement of Operations and Changes in Net Assets have not been adjusted to remove the impact of the cross investments. The commissions on subscriptions and redemptions, as well as management fees, were not applied to the assets of the fund that has cross-invested into other funds.

The table below provides the value of those cross-investments in the relevant Fund's Portfolio of Investments as at 30 November 2025:

Fund	Cross Investment Fund	CCY	Market Value	% of Net Asset
BlackRock Dynamic Diversified Growth Fund	BSF - BlackRock ESG Euro Short Duration Bonds Fund	EUR	9,543,527	2.77
BlackRock ESG Fixed Income Strategies Fund	BSF - BlackRock ESG Euro Corporate Bond Fund	EUR	19,725,976	0.78

11. Dividends

For the Non-Distributing Share Classes, the Directors' current policy is to retain and reinvest all net income.

For the Distributing Share Classes, the policy is to distribute substantially all the investment income (where available) for the year after deduction of expenses (or gross income in the case of Distributing (G) Shares). The Directors may also determine if and to what extent dividends may include distributions from both net realised and net unrealised capital gains. Where Distributing Share Classes pay dividends that include net realised capital gains or net unrealised capital gains, or, in the case of Funds which distribute income gross of expenses, dividends may include initially subscribed capital. Shareholders should note that dividends distributed in this manner may be taxable as income, depending on the local tax legislation, and should seek their own professional tax advice in this regard.

Where a Fund has UK Reporting Fund status and reported income exceeds distributions made then the surplus shall be treated as a deemed dividend and will be taxed as income, subject to the tax status of the investor.

The Company may operate income equalisation arrangements with a view to ensuring that the level of net income accrued within a Fund (or gross income in the case of Distributing (G) Shares) and attributable to each Share is not affected by the issue, conversion or redemption of those Shares during an accounting period.

12. Securities Lending

The table below provides the value of securities on loan and the related collateral received as at 30 November 2025:

Fund	CCY	Value of securities on loan	Value of collateral received

Income earned during the period by the Funds from securities lending transactions is disclosed in the Funds' Statement of Operations and Changes in Net Assets under caption "Securities lending". Securities on loan are respectively flagged on Portfolio on Investments.

13. Credit Facility

The Company entered into a credit facility (amended and restated version dated 17th April 2025) with JPMorgan Chase Bank, N.A. ("JPMorgan") whereby JPMorgan, together with other syndicated lenders, makes a USD 1 billion credit facility available to the BlackRock Luxembourg domiciled UCITS fund ranges.

This credit facility may be utilised by the Fund for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are paid out of the assets of the relevant Fund. Any new Fund will not automatically be eligible to avail the credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Fund. During this for the period, such Fund will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new

Fund will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Fund and other BlackRock Funds participating in the credit agreement. As such, the Fund may not be subject to the credit line and will not incur any fees with respect to same.

A loan commitment fee is charged in relation to this credit facility which is included in the Statement of Operations and Changes in Net Assets under caption "Loan commitment fees". The loan commitment fee is charged at 0.10% on the undrawn balance.

No portion of the credit facility was used during the period ended 30 November 2025.

14. Amounts due from/to broker

Due from/to broker on the Statement of Net Assets consists of cash collateral and margin paid/received to/from Funds' clearing brokers and various counterparties.

Derivatives Instruments due from/to broker

The Funds trade derivatives with a range of counterparties. The counterparties to the derivatives are shown in the Portfolio of Investments. Collateral/Margin is paid or received on derivatives instruments to cover any exposure by the counterparty to the Company or by the Company to the counterparty. ″Due from brokers" consists of cash collateral paid to the Portfolio's clearing brokers and various counterparties. "Due to brokers" consists of cash collateral received from the Portfolio's clearing brokers and various counterparties. Derivatives instruments cash due from broker forms part of Cash at Bank and derivatives instruments cash due to broker forms part of Cash owed to Bank in the Statement of Net Assets. The table below provides the cash collateral balances due from/(due to) the brokers as at 30 November 2025. 15. Total Expense Ratio

Total Expense Ratio ("TER") is calculated as the total of all expenses (excluding bank interest, negative yield expense on financial assets and expense reimbursements), divided by the average net assets of the share classes, expressed as a percentage based on a twelve-month period ended 30 November 2025.

The Management fees may be used in part to pay remuneration for distribution activities concerning the Company. Reimbursement may be made to institutional investors which from a commercial perspective hold shares of the Company for third parties.

The TERs and the actual performance fees charged by unit class of Fund for the period from 1 June 2025 to 30 November 2025 are as follows:

(1) Fund name changed post period end, see Note 16 for further details.
(2) New Share Class launched, see Appendix I for further details.

The TERs were calculated in accordance with the Asset Management Association Switzerland ("AMAS") guidelines on the calculation and disclosure of the TER for collective investment schemes. The AMAS guidelines were last amended on 1 January 2022.

Certain Funds, as indicated above, invest a significant portion of their net assets in underlying target funds which do not publish a TER in accordance with the AMAS guidelines. Therefore, the prorated TER of the underlying target funds has not been included in the TER of the Funds disclosed above. This waiver provision complies with the AMAS guidelines.

16. Subsequent Events

Efficient portfolio management and securities financing transactions

Efficient Portfolio Management Techniques

The Directors may, on behalf of each Fund and subject to the conditions and within the limits laid down by the CSSF and the Prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC Financial Derivative Instruments ("FDIs") provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or for direct investment purposes, where applicable.

The underlying exposure obtained through FDIs and the identity of the counterparties to these FDIs at the financial period end are disclosed on the relevant Fund's condensed schedule of investment.

Securities Lending

All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the Securities Lending Agent, BlackRock Advisors (UK) Limited, a related party to the Entity, and separately between the Securities Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary on behalf of the Funds. Collateral received is segregated from the assets belonging to the Funds' Depositary or the Securities Lending Agent.

The following table details the value of securities on loan as a proportion of the Fund's total lendable assets and as a proportion of the Fund's NAV, as at 30 November 2025 and the income/returns earned for the period ended 30 November 2025. Total lendable assets represent the aggregate value of assets forming part of a Fund's securities lending programme. This excludes any assets held by the Fund that are not considered lendable due to any market, regulatory, investment or other restriction.

All revenue generated from securities lending activities during the financial year net of the Securities Lending Agent's fee will be returned to the relevant Fund (see further the operating income note). If there is securities lending revenue generated, the Securities Lending Agent will receive a fee of 37.5% of such securities lending revenue and will pay any third party operational and administrative costs associated with, and incurred in respect of, such activity, out of its fee. To the extent that the securities lending costs payable to third parties exceed the fee received by the Securities Lending Agent, the Securities Lending Agent will discharge any excess amounts out of its own assets.

The following table details the value of securities on loan (individually identified in the relevant Fund's Portfolio of Investments), analysed by counterparty, as at 30 November 2025.

Total return swaps (″TRS″)

All TRS are entered into by the Funds under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Funds and a counterparty that governs OTC FDIs (including TRS) entered into by the parties. The parties' exposures under the ISDA Master agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by the Funds under the ISDA Master Agreement, not just TRS.

All collateral received/posted by the Funds under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The collateral received/posted by BlackRock Dynamic Diversified Growth Fund,Systematic Style Factor Fund and BlackRock Sustainable Fixed Income Strategies Fund under the ISDA Master Agreement in respect of variation margin is transferred bilaterally under a title transfer arrangement. Collateral received by the Funds in respect of variation margin is held in an account in the name of the Depositary on behalf of the Funds. Collateral received is segregated from the assets belonging to the Fund's Depositary. The collateral posted by the Fund under the ISDA Master Agreement that constitutes the Independent Amount (sometimes referred to as initial margin) is posted by the Fund under a security interest arrangement.

The following table details the value of total return swaps as a proportion of the Fund's NAV, as at 30 November 2025 and the income/returns earned for the period ended 30 November 2025. The value of total return swaps is based on the underlying exposure value on a gross absolute basis.

As at 30 November 2025, part of cash collateral received by the Funds was re-invested in money market funds managed by the affiliates of the Management Company, as disclosed in the Funds' Portfolio of Investments. The Funds are the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. All cash received or posted as collateral has an open maturity tenor as it's not subject to a contractual maturity date.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions and OTC FDIs, cannot be sold, re-invested or pledged.

The returns earned by the Funds from the reinvestment of cash collateral in money market funds during the period ended 30 November 2025 is summarised below. These returns represent the accumulative total return of the respective money market fund for the period ended 30 November 2025. These returns do not take into account any interest payable to the counterparty under the relevant collateral arrangements.

Money market fund	Total returns
Institutional Cash Series plc	
- Institutional Euro Liquidity Fund	1.82%
- Institutional GBP Liquidity Fund	4.02%
- Institutional US Dollar Liquidity Fund	4.12%

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20% of the total index and no five equities combined represent more than 60% of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities, ETFs and money market funds received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.
